

GAAP and Audits - Online

This introductory course provides managers with a basic understanding of financial management. It demonstrates how to read and understand key elements of financial statements and reports, such as balance sheets, income statements and cash flow statements. Participants also learn how to apply basic financial and accounting principles to budget preparation and analysis.

This course replicates the content from lesson 3 of Finance for Nonfinancial Managers - Online

This is an asynchronous eLearning course that can be accessed 24/7 from any internet enabled computer.
