

Bonds and Their Features - Online

This broad and practical perspective of diverse short-term and long-term fixed income instruments is invaluable for professionals in the fixed income arena. This course provides a solid introduction to credit risk, bond-rating systems, bond trading terminology, techniques and strategies, yield curve and the factors that affect it, and the role of the Federal Reserve System and its impact on bonds. It covers the corporate, municipal, and government bond markets, focusing on the concepts, functions, and operations of these markets.

This course replicates the content from Lesson 1 of Fixed Income Securities - Online. This is an asynchronous eLearning course that can be accessed 24/7 from any internet enabled computer. Subscription period for this course is 90 days.
