

Margin for Options: An Introduction - Online

Building on Margin I, this advanced course covers the more complex margin requirements and calculations for various types of option positions, such as covered and uncovered puts and calls, index options, spreads, straddles, and combinations. It also teaches margin rules for day trading equities and options.

This course replicates the content from lesson 1 of Margin II: Advanced Margin for Options - Online

This is an asynchronous eLearning course that can be accessed 24/7 from any internet enabled computer. Subscription period for this course is 90 days.
