

## Pricing and Trading of Asset Backed Securities - Online

This introductory course guides students through the evolution of asset securitization, which results in new products for investors and expanded sources of funding and risk transfer opportunities for issuers. It shows how an asset-backed security is traded and valued.

This course replicates the content from lesson 4 of Asset Backed Securities - Online. This is an asynchronous eLearning course that can be accessed 24/7 from any internet enabled computer. Subscription period for this course is 90 days.
